

## PDF Information Page - Tip #58

A new screen named PDF Information has been added to the Success Stories and TOPS tables. This new screen contains fields for PDF Format, Text for Searching Purposes, and PDF Files. See Figure 1 below. The Text for Searching Purposes text box is non-enterable if the Success Story or TOPS record is not entered as a PDF.

Figure 1

Success\_Story: 8 of 3343 records in selection

**PDF Information**

☒ This Success Story will be entered as a PDF

Text for Searching Purposes

**PDF Files**

Add... Edit... Export File to Disk... Delete... New Window...

Type	PDF Title	Tag
PDF	Chapter57	SS

Number of PDF Files: 1

TechTracs

PDF files that are relevant to the Success Story or TOPS record are added with the Add button in the PDF Files section of the page. A PDF information page is displayed. This can be seen in Figure 2 below. All fields are non-enterable until a PDF file has been imported. PDF files are imported by clicking the Import PDF from File button. The Title defaults to the PDF filename. Any spaces in the filename are replaced by underscores. The size of the PDF file is assigned automatically after the import. The size cannot exceed the Multimedia Picture Size Limit set in the Constants record.

Figure 2

The screenshot shows a window titled "Success\_Story: 8 of 3343 records in selection". Inside the window, there are three input fields: "Key" with the value "5003766", "Tag" which is empty, and "Size" with the value "0 bytes". Below these fields is a section titled "PDF INFORMATION" in a blue header. Under this header is a "Title" input field. At the bottom of the "PDF INFORMATION" section are two buttons: "Import PDF from File" and "Export PDF to File". On the left side of the window, there are two buttons: "Accept" (with a checkmark icon) and "Cancel" (with an 'X' icon). At the bottom left corner of the window is the NASA logo and the text "TechTracS".

The first Success Story and TOPS record is assigned the "SS" and "TOP" tags respectively. This tag indicates that the PDF is to be displayed on TechFinder. If multiple PDF files are added to the Success Story or TOPS record, only one can have the "SS" or "TOP" tag. Also, the title of the PDF File, with the "SS" or "TOP" tag must be unique compared to other PDF Files that have been released to TechFinder (indicated by the "SS" or "TOP" tag).

The PDF file can be modified with the Edit button. The Export File to Disk button allows the user to save the PDF file to disk. See Figure 2 above. PDF files can be removed with the delete button and the New Window button displays the related PDF files in the new window. These last two can be seen in Figure 1 above.
